Re: Clarification to the Final Approval of the Human Health Risk Assessment for the Route 561 Dump Site, Gibbsboro, New Jersey

Dear Mr. Stroebel:

The U.S. Environmental Agency (EPA) has received and reviewed the response to the Conditional Approval of the Human Health Baseline Risk Assessment for the Route 561 Dump Site, Gibbsboro, New Jersey. The conditional approval letter was sent on August 5, 2015 and the response was received by EPA on August 17, 2015.

EPA approves all of the revisions.

On October 27, 2015, EPA sent a final approval letter for the Human Health Risk Assessment and mistakenly identified the Baseline Ecological Risk Assessment in the body of the letter. That was an error. The letter was intended as a final approval only for the Human Health Risk Assessment. Sorry for any confusion.

If you have any questions, please contact me at 212-637-4414 or at [gelblat.renee@epa.gov](mailto:gelblat.renee@epa.gov).

Sincerely,

A handwritten signature in black ink, which appears to read "Renee Gelblat", is written over a horizontal line.
